LEGISLATURE IN  
5-DAY RECESS;  
IN HOT FINISHAudit Board Resolution Again  
Before House—Independents

## A COMMITTEE IS NAMED

Nine House Members to "Di-  
gest" Report and Ascertain  
Its Correctness

There was fireworks again in the house of representatives yesterday afternoon before the house agreed with the senate to adjourn until next Tuesday at 1 P. M., to permit many members to attend the grain growers convention at Fargo.

The fireworks were on the audit report, the independents carrying the resolution of Granger, of Barnes, gaining one league vote on the measure declared by the author to be for the purpose of getting the accountants' report on the state industries "unsullied."

The Granger resolution created a committee of nine members to study the report as soon as it is received, and to call for officials, accountants or anyone for the purpose of ascertaining the correctness of the report. The vote was 58 to 50, with 5 absent.

Del. Patterson, Nonpartisan, immediately offered an amendment calling for a committee of three to act with a similar committee of the senate.

Speaker Twitchell called Watt of Coos, to the chair and taking the floor, renewed his charges of attempts at obstruction by the majority members of the state board of auditors.

Wakes Charges.  
"We can go to get no where," he said, "in the investigation or the consideration of the audit report if we call in a committee of the senate. The first thing to do to make a report possible was to get the money and the money was not forthcoming from any of the representatives of the men who are now trying to amend this resolution. No money was offered from the contingent fund. Everything was done to prevent the old board of auditors from making the audit and now these men are telling us that they want the report. You have an idea how interested they are. We want expert accountants to appear before this committee and they will not be all Bishop Brisman either. We want a fair audit and we are going to have it."

Mr. Patterson charged Mr. Twitchell with attempting to convey a wrong impression of his stand and said he was going to fight for the amendment to the last ditch.

Kitchen of Golden Valley, insisted that the house had initiated the idea of getting the report and was entitled to a separate consideration of it. Maddock of Mountain, said he didn't care much whether the amendment passed or not but that he disliked greatly all "this old stuff insinuating dishonesty and I don't care from what side it comes."

Made No Insinuations.  
Speaker Twitchell here declared that he had not made any insinuations but that they were charges, and that he thought he had made that clear.

On a roll call the vote was 59 against the amendment and 50 for it.

Olson Dismissed.  
Harding of Emmons, then moved an amendment to provide that five of the majority and four of the minority be appointed on the committee. Olson of Barnes, leaguer, voted against this amendment because although he didn't agree with everything in the Granger resolution he was disgusted with all the wrangling back and forth. He felt sometimes he said as though if he had a pocketful of stones he would throw the rocks at everybody.

Mr. Kitchen moved the previous question while Patterson had an amendment he wished to make giving each member of the committee the right to call witnesses. When the previous question was put Shipley and Starke of Stark, Johnson of Cass, and other Independents voted against it, and Miller of Bottineau and other leaguers voted for it and this in disregard of party lines it was carried.

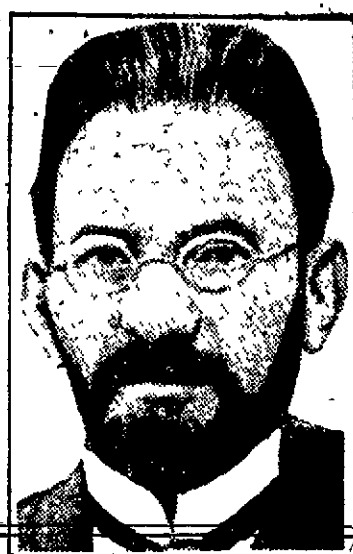

Appoints Committee.  
Speaker Twitchell appointed the following members on the committees: M. O. Granger, Rogers, Barnes county, chairman; John Freeman, Grand Forks, Grand Forks county; Theodore Hanson, Leeds, Benson county; Andrew Johnson, Douglas, Ward county; Adam Nagel Jr., Lehr, Logan county; S. W. Johnson, Colgate, Steele county; P. F. Doyle, Charleson, Williams-McKenzie, D. E. Shipley, Dickinson, Stark county, and C. L. Gland, Mayville, Traill county.

The resolution was as follows: Whereas, the house is advised that the audit of the state bank and the state industries prepared by Bishop Brisman & Co., under the provision of the initiated law passed at the November, 1920, general election, will shortly be available to the house; and Whereas, such report will necessarily be voluminous and comprised of hundreds of thousands of printed matter and figures, needing and requiring examination and verification; and

Whereas, many matters disclosed by such audit will undoubtedly require other and further information and data with respect thereto, to a clearer understanding and appreciation of the exact condition of such state industries by the members of this house and the people of the state and

Whereas, it will be entirely impractical for the house as a body to make such further investigations as shall

EXPECT AUDIT  
REPORT EARLY  
IN NEXT WEEKHouse Committee Organizes to  
Receive Document from  
Accountants

The report of Bishop, Brisman & Co., on the audit made by the state board of auditors on the state industries is expected to arrive by Monday.

With this in mind, the committee of the house appointed yesterday afternoon by Speaker Twitchell met last night and made plans to begin its consideration immediately upon its arrival and possibly it will have a report ready on a portion of the audit when the house convenes again Tuesday.

Chairman Granger, who lives at Rogers, Barnes county, is still in the city and has not decided yet whether he will go home.

Rep. Leaguer from Williams-McKenzie, is not in good health and for that reason he is going to request that he be relieved.

WOULD DEPRIVE  
2,000 OF JOBS  
AS TREASURERSProposed Measure Also Would  
Permit Money to Be Kept  
at Home

Two thousand school treasurers in North Dakota would lose their jobs if a bill prepared for introduction in the North Dakota legislature would pass. The proponents of the measure, J. H. Phelps, county superintendent of Divide county.

The bill authorizes the school districts to handle the funds through local depositories, to be local banks designated by the boards. This would remove the option now held by school treasurers of depositing school funds in the Bank of North Dakota or local banks.

There are many school officials who favor the abolition of the office of school treasurer, at least in the rural school districts. Often the treasurers are inexperienced in handling books and they fail to provide the statistical and other information needed by school authorities. While the treasurers generally are inexperienced in book work, however, state officials say that it is a very rare thing to find a school treasurer short in his accounts.

YOUR INCOME TAX  
When, How, What to Pay

BY GRAHAM B. NICHOL  
Every single person—the term including widows, widowers, and persons not living with husband or wife—whose net income for the year 1920 was \$1,000 or more, and every married person living with husband or wife, whose net income was \$2,000 or more, must file a return.

The exemptions are the same as for 1919, \$1,000 for single persons and \$2,000 for married persons and heads of families, plus \$250 for each person dependent upon the taxpayer for chief support of such person is under eight years of age or incapable of self-support because mentally or physically defective.

The tax rate also is the same for last year, 4 per cent on the first \$1,000 of net income above the exemptions and 8 per cent on the remaining net income. The surtax rates remain 4 per cent on net incomes between \$2,000 and \$5,000, 6 per cent on net incomes in excess of \$5,000.

PRICE DECLINE  
REASON GIVEN  
FOR LOSSESP. M. Casey of Equity Plant Ex-  
plains Situation to 1,500  
Stockholders

## A PROTEST IS RAISED

Investors in Plant Have Wordy  
Battle Over Management  
of Packing Plant

Fargo, Jan. 20.—P. M. Casey, president of the Equity Co-operative Packing plant at Fargo, against whose management a fight has been started at the annual meeting attended by about 1,500 stockholders, this morning laid the blame for the present critical financial condition of the company to declining prices for the past year, the employment situation, which required the training of inexperienced men for the work and the management of L. C. Hoopman, who was removed several months ago and in whose place H. M. Wilson was named.

He declared that the future of one of the greatest cooperative bodies in the nation was at stake in the present meeting and told of plans of the future to organize on the departmental plan and put experts at the head of each department.

P. M. Casey, head of the Equity plant at noon today held control of the stockholders convention.

Excited Gathering.  
At an excited gathering the 1,500 stockholders howled down a motion to defer consideration of the financial statement made by Representative C. W. Reichert of Cavalier, who led the opposition to Casey against whom a campaign of removal had been aimed.

The financial statement footing of \$2,886,975 shows a deficit of \$771,216, according to the audit report made by the Northwest Audit company. Stockholders opposing Casey said that the management was so poor "that a fool with a glass eye could see it" and charged former manager L. C. Hoopman with gross mismanagement and also charged that the board of directors of the company knew of the serious financial situation as long ago as last March. Critics were howled down by the majority of the stockholders.

Protest Raised.  
When Reichert again attempted to "take the floor" against Casey and his followers a protest was raised and he was denied the privilege of the floor by a rising vote.

He said that 2,303 carloads of livestock had been handled in the past year and that about half of those were killed at the plant and the others sent to other markets, 84 per cent going to the Equity Co-operative Exchange at South St. Paul. He said the plant had cost about \$1,000,000 and that about \$3,000,000 had been subscribed, some \$2,000,000 being paid in and about \$800,000 being due on notes being unable to collect making the financial situation critical.

men's Compensation Fund  
Discussed

Independents are considering the introduction of a resolution asking for a more detailed report from the Workmen's Compensation board than that contained in the document printed and submitted to the governor.

The surplus has been computed on the basis of March 1, instead of June 30, the end of the fiscal year as it is asserted it should have been. The surplus is important, it is pointed out, because it may show that the rates are too high.

## OTHER SENATE NEWS

Farmers of North Dakota are not at all in a mood to see all other classes of trade and labor put their work to eight hours while they must slave fourteen to eighteen hours, according to a communication presented to the upper house of the legislature yesterday by Senator Church, a Nonpartisan leader.

It is signed by A. M. Johnson and twenty-four other members of the North Dakota Livestock association of Benson county.

"We protest," they assert, "against the proposed legislation for an eight-hour day on public and other work. We feel that labor should shoulder the full work. As we farmers cannot shorten our fourteen to sixteen hour day and do our work."

The measure introduced by George Lakle, Williston, a league member of the house of representatives, calling for a limitation of eight hours work by employees of the state is the particular measure attacked.

of the Cost

(S. E. A. Staff Special.)  
New York, Jan. 20.—Around the world by air? The International Aeronautic Federation expects to accomplish this by 1922.

The Aero Club of America is participating in the plans and will be represented by a squad of thirteen in the flight.

One of Myron T. Herrick's biggest jobs as the new president of the Aero Club of America will be to finance America's share of the cost. This is estimated at \$2,000,000.

But Herrick, former governor of Ohio and ambassador to France, is used to big jobs.

The total cost will be \$10,000,000, of which \$1,000,000 may be awarded in prizes.

## Is Nations in Derby.

Eighteen nations that are members of the International Aeronautic Federation have promised to enter representatives. These representative progress with their plans include: New York, Albany, Rochester, Buffalo, Cleveland, Cincinnati, Dayton, Detroit, Milwaukee, Chicago, Minneapolis, St. Paul, St. Louis, Omaha, Kansas City, Memphis, Touky, Denver, Cheyenne, Los Angeles, San Diego, Memphis, Portland, Tacoma, Seattle, and San Francisco.

Tentative routes on the derby have been mapped by the Aero Club of America, which last year sent around the world as pathfinders a commission composed of Major Charles E. Gilden, Louis D. Beumont, Allen R. Hawley and Henry Woodhouse.

The route now is being considered by the Aero Club of France.

## BOOTLEGGER SHOTS FIRST

Magic City Policeman Fires Sev-  
eral Bullets Lying on  
His Back

Minot, N. D., Jan. 20.—Lee Fahler, Minot policeman, and Harvey E. Erickson, alleged whiskey runner, who says his home is in Chisholm, Minn., are in a hospital here following a pistol fight at 5:30 a. m. today. They are not expected to live.

The shooting occurred when Fahler, making the rounds of his beat, encountered Erickson, who had stopped his car and was looking for a filling station.

Erickson failed to give satisfactory answers to Fahler's questions and the policeman, it is claimed, drew his revolver and started to take Erickson to the police station.

Shoots Three Times  
When the officer looked into Erickson's car to see if anyone else was with him Erickson drew a revolver and shot Fahler through the breast. Fahler fell to the ground and while lying there fired three times, each bullet taking effect in Erickson's body. After the shooting Erickson walked a block and crawled into the basement of an apartment house where the janitor found him a few minutes later and was forced at the point of a revolver to call a physician to attend the wounded man.

Find 20 Cases  
Fahler had been found and was taken to a hospital.

Twenty cases of Canadian whiskey which he said he had stolen in Canada were found in Erickson's automobile. Fahler, who has been on the Minot police force two months, is married and is the father of one child.

MEETING HERENew Officers of Lodge Preside  
at Ceremony Last  
Night

## MAKE PLANS FOR YEAR

The first meeting of the year conducted by the new officers of St. Elmo Lodge No. 4, Knights of Pythias, was a real success. The meeting was held last night in the lodge hall and was under the direction of the new Chancellor Commander E. M. Thompson.

The meeting was enlivened by the use of the regalia ceremony, during the execution of which the national anthem was played by the new pianist of the lodge, Angelo Holta. One of the delightful features of the meeting was floral offerings by Frank G. Grambs, past grand chancellor of the domain of North Dakota. Mr. Grambs provided bouquets of carnations and roses for each of the officers' stations and the altar.

During the business meeting there was a discussion of the plight of children in the Near East and the lodge, as a part of its policy of brotherhood, adopted an orphan and will contribute funds for its support for one year.

Committees were named by the chancellor commander to conduct the program for the year. The next meeting will be held on February 2, and it promises to be fully as successful as the meeting last night.

TAYLOR PAYS  
TRIBUTE TO  
COL. GILBREATH

Praise for the service rendered the state by Col. W. C. Gilbreath, who died Tuesday night, was voiced by E. J. Taylor, deputy state superintendent of public instruction, who served in the state house for fourteen years with Col. Gilbreath.

During this period Mr. Taylor and Mr. Gilbreath were in different offices but were closely associated.

"He was a good officer, a loyal friend and he made the office of agriculture and labor really count," said Mr. Taylor.

The body of Col. Gilbreath was taken to Minneapolis last night for burial following funeral services today.

## ODD FELLOWS ORGANIZE TO GET NEW HOME

Local Lodge First Will Increase  
Membership 100  
Percent

Capital City lodge No. 2, I. O. O. F., is out to increase its membership and to obtain the state Odd Fellows home for Bismarck.

Plans were formulated for the campaign for members at a meeting held last night. Three candidates were nominated in the third degree, and the ceremonies were followed by an oyster supper and get-together meeting.

The lodge first will try to double the membership. After the campaign it is planned to hold a dinner in a downtown hotel and boost for the Odd Fellows home.

The grand lodge last year decided to establish a state home, but has not chosen the location. Bismarck stands a good chance of winning the home, local members say.

## Federal Commission Orders Probe of North Dakota Rates

Washington, Jan. 19.—On petitions of the railroads operating in North Dakota, the Interstate Commerce Commission ordered an investigation into the failure of the state railway commission to grant increases in state passenger rates equal to those allowed by the federal commission in interstate traffic. Data for the hearing will be filed later.

The railroads asked a 20 per cent increase in passenger fares in North Dakota, this amount being the increase granted for interstate traffic in the Northwest district. The railroads also have asked investigations into the failure of the commission to grant increases on freight rates.

## CUSTOMERS SECURED FOR POULTRY SHOWS

Persons at Summer Resorts Buy  
Produce in Winter.

City People Have Inspected Producer's Farm and Know Under What Conditions Foodstuffs Are Raised—One Case Cited.

Many producers living near summer resorts supply produce in the summer months to the persons at the resorts, and during the other months of the year ship produce to these persons while they are in the city. This, say marketing specialists of the United States Department of Agriculture, is one of the best methods of obtaining customers for direct marketing, as the producer and consumer have some acquaintance. In most instances the customers have been at the producer's farm and know under what conditions the articles are produced.

One man who lives near a summer resort in Indiana is about twelve miles from the nearest town of any size. He does not desire to drive to this town to dispose of his farm produce and is not satisfied with the prices that the hucksters pay. Consequently he built up a business of supplying products to resorters in the summer and of shipping produce by parcel post and express to these persons at their city homes in the winter.

The principal products shipped are butter, eggs and dressed poultry. This producer uses good shipping containers and packs produce attractively. As he is acquainted with his customers, he renders statements of accounts only once a month. In this way the matter of making payments is simplified for the customers.

This producer has had no trouble in establishing his business nor in retaining customers. He states that his only trouble has been in getting enough high-grade produce to supply all of his customers.

## BARIIUM POISONOUS TO RATS

Tests Indicate That a 20 Per Cent  
Mixture With Food Makes Most  
Satisfactory Bait.

A study of barium carbonate as a rat poison, made by the United States Department of Agriculture, indicates that a 20 per cent mixture with food makes a satisfactory bait. With this percentage a rat ordinarily needs to eat only one-third or three-eighths of a meal of average size to get a fatal dose. It was found that with this dose many of the rats poisoned died within 24 hours, though an occasional rat was found which survived an even larger amount, thus indicating that 100 per cent mortality is not to be expected in any case.

A summary of results of experiments conducted by various persons with a view to determining the deadliness of barium to different animals shows the fallacy of the assumption that barium is poisonous only to rats. It is pointed out that the fatal dose of barium per pound tends to decrease relatively as the size of the animal increases, and that a bait calculated to be fatal to rats may be assumed to be more or less dangerous to small domestic animals also.

## SUCCULENT FEED FOR FOWLS

Now That Good Qualities of Forages

Everyone knows that a hen lays best when she gets the succulent grasses that first shoot out of the earth in spring. Most successful feeders use in their mash a base of some heavy, nonfattening, yet nutritious food. For a long time the best feeders of the country used wheat bran for this base, but now that the good qualities of forages are well known the bill of fare should be changed to suit.

## Not a "Cheap Duchess"

Everyone told stories about Queen Victoria. The one I liked best was of her correction of a draft letter to say that the duchess of Connaught was to join the queen's train. The queen wrote in pencil on the draft, "She should always describe the duchess as 'her royal highness,' to show that she is not a common duchess."

## WAS OUT TO SAVE MONEY

Mrs. Newbridge Had It All Figured, to Her Own Satisfaction, at Any Rate.

"Yes, it does, as you say, give rather an air to the flat," agreed the almost new husband. His wife had seated herself on the arm of his chair surveying their latest acquisition, the baby grand piano, which filled three-fourths of the living room.

"And now if we only had one of those fifty one-arm floor lamps," mused the almost new husband's bride. "Why, Bettina, it was only yesterday that you argued the piano would finish the room, without buying another thing," protested the almost new husband. "That was one of the arguments you used to wheedle me into buying!"

"Well, of course, it gave us buying a luscious blue plush bed-davenport, or a graceful chaise longue or a library table," she defended. "There simply isn't room in this apartment for much besides the piano. It really is an economy in the end. But a lamp is different. You know that a grand piano is not complete without a floor lamp. And while we are at it we might as well get one of the newest kind. Just think how cozy we would look with you sitting peacefully under the new lamp while I play to you every evening!"

"Hum!" groaned the almost new husband. "The next thing you'll be telling me that a grand piano requires an oriental prayer rug under the pedals, a Persian scarf thrown across the bench and a vase of dollar-a-small-roses in constant attendance. I'm rather surprised that you haven't mentioned another apartment with a piano room for your pet!"

"It would be nice," agreed the bride falling to note the touch of sarcasm in the voice of her husband. Then she rallied her forces once more. "But think how much money it will save us on movies. By staying home to play and sing we save—let me see—exactly 68 cents a day!"

"By the way," said the almost new husband, "we mustn't forget our serial on Friday night. Last week left Harry Fairbreath in an awful fix. Do you think the piano would mind if we left it alone just once?"

"Oh, I guess not," answered Betty absent-mindedly. Then she launched her final attack. "You know, Billy, I can't expect you to give up going out entirely, at least until I learn to play better. I have heard of a splendid teacher at \$10 an hour and I really think, to be worthy of such an instrument, I should take lessons!"

"It's not the original cost, it's the upkeep!" said the almost new husband. "Come along, my dear, to the movies."

## House of 1,000 Rooms.

A maze which forms a happy hunting ground for robbers, is the house formerly occupied by the ministry of war in Vienna, says a correspondent. The great size of the thousand roomed house evidently attracts the attention of thieves and the military and police seem unable to keep them out. Ornaments, pictures, typewriters, everything and anything, even to the door knobs and knockers are constantly being carried away. When a thief, in the course of his wanderings, meets anyone, he simply pretends to have come on business, and goes on until he comes to an unoccupied room, there he quickly gathers together anything he can lay his hands on, and departs in many cases the robbers have an accomplice in the street to whom articles are thrown from the window.

London, Jan. 18.—Four civilians were killed and seven Black and Tan auxiliary policemen wounded in a fight in County Galway, Ireland, according to reports received here today. The fight ensued when a Black and Tan patrol was ambushed.

## WESTERN UNION RESTRAINED FROM LAYING CABLES

New York, Jan. 19.—Federal Judge A. N. Hand today issued a temporary injunction returnable next Friday restraining the Western Union Telegraph company from landing the British-Brazil-Barbadoes cable at Miami, Florida.

The injunction also restrains the company from using the three cables between Havana and Key West in connection with messages between the United States and Brazil.

## CALLS WARRANTS FOR 2 COUNTIES

The state treasurer has called bail warrants for Traill and Towner counties, issued for losses in 1919, it was stated at his office today. All 1919 bail warrants will be called within a short time, it is said.

## BOOSTING LEGIONNAIRE.

Mr. E. J. Kelly, who has been appointed circulation manager for the Legionnaire, the official publication of the American Legion in North Dakota will be at the C. P. hotel for the next few days.

During the time Mr. Kelly expects to get in touch with all Legion members of Lloyd Spetz Post of Bismarck.

## ISSUED PROCLAMATION

A proclamation calling upon churches, schools, and all public gatherings to lay stress on the necessity of the preservation of law and order is made by Governor Frazier today for "L. O. and Order Sunday," which is on January 23, 1921. The Law and Order Union of the country requested the proclamation.

## Hair "a la Pompadour."

The style of arranging the hair pompadour originated with the French women about the middle of the eighteenth century. This style of hairdressing is believed to have derived its name from the notorious Mme. De Pompadour.

## PLAN A RECALL ON AUDITOR IN KIDDER, REPORT

A recall will be instituted against the only anti-Nonpartisan league officeholder in Kidder county, according to information received here. He is John W. Jacobs, county auditor. He did not put the name of his Nonpartisan league opponent on the ballot because the opponent did not file an expense account after the June primary, it is said. The opponent was run on "stickers" but was defeated.

## Colliers Beat Sheep Dogs.

The department of agriculture says that the Scotch colliers are the favorite sheep dogs of America. Their tireless watching even at night, their barking at the approach of any prowler, and their instinct for keeping the flock together are of great value. The stray dog is one of the sheep's worst enemies.

## IOWA MAN SAYS HE IS NOW QUITE CONVINCED OF IT

Crippen Knows Now Tanlac Does  
All Claimed For It—  
Regains Health

"Since my experience with Tanlac I have never doubted that it will do everything that is claimed for it," said George Crippen, an employee of the Lafayette hotel at Clinton, Iowa. During the past two years I had a world of trouble from indigestion. Everything I ate seemed to lodge right in the pit of my stomach where it fermented and formed gas that bloated me up till it actually hurt to fasten my belt. Any little exertion in doing my work around the hotel caused my heart to palpitate so violently I felt like my breath would be cut off.

"My nerves were in such a state that the least noise would wake me up and I never got any sound sleep. My back hurt almost constantly, my appetite left me, I was falling off in weight and couldn't find any medicine that would do me a bit of good."

"Well, I finally decided to try Tanlac, and since taking it I feel like a new man. I have a splendid appetite, nervousness, aches or pains of any kind, I have already gotten back ten pounds of my lost weight and am still gaining. I sleep fine every night and feel good all the time."

Tanlac is sold in Bismarck by Jos. Breslow, in Driscoll, N. D., and J. H. Barrette, in Wing, by H. P. Homan, and in Strasburg by Strasburg Drug Co.

## MEETINGS FOR FARM BUREAU TO BE HELD SOON

Campaign in Burleigh County Will Start January 24, It Is Announced

**SPEAKERS ARE OBTAINED**  
G. W. Rabdlett of Extension Staff One of the Organizers

A series of 23 meetings will be held in the various communities in Burleigh county beginning Monday, Jan. 24, and continuing until Tuesday, Feb. 1, for the purpose of explaining to the farmers of that county the benefits of the farm bureau movement, particularly as to its state and national significance.

Speakers at these meetings will be G. W. Rabdlett, director of the North Dakota Extension division, and Dr. Don McMahon of the Extension staff. Following this series of meetings, an organization committee of local farmers plans a campaign for membership in the Burleigh County Farm Bureau which will affiliate with the North Dakota Federation and the American Farm Bureau Federation. Beginning the first week in February, solicitors will make a farm-to-farm canvass of the county, and will urge every farmer to join the organization.

The members of the campaign committee in charge are J. M. Thompson, Still, chairman; Mrs. T. Ellison, Sterling, and John Schneider, Elsmere.

The following schedule of meetings has been arranged:

## STATEMENT OF BANK DISCLOSES DEPOSITS LOSS

Bank of North Dakota Monthly Statement Shows Large Liquidation

**RESOURCES ARE LISTED**

A liquidation of more than \$11,838,000 since June 4, is shown in the statement of the Bank of North Dakota issued today by F. W. Cathro, manager and director general, showing the condition of the bank at the close of business on January 15, 1921. Profits for 1920 are listed at \$124,889.17.

The total resources are listed at \$15,926,725.21 as compared to \$27,764,870.37 in the statement following the examination of the bank on June 4, 1920, by O. E. Loftus, state examiner.

Mr. Cathro, in referring to the proposition of bankers to finance state-owned industries to a limit of \$6,250,000 charges that the private bankers enumerated "conditions on which they will cooperate to sell the bonds, which are plainly of a political character."

The statement shows that \$6,204,626.97 is due to the state-owned banks from private banks of the state, being public funds deposited in the Bank of North Dakota and redeposited by the bank into the privately owned banks. In addition, the state-owned bank lists \$65,667.27 as due from banks in the state.

The statement shows:  
Bonds, U. S. state and county.....\$ 1,962,756.27  
Loans to banks.....2,607,418.03  
Loans on warehouse receipts.....94,001.11  
Loans to public bodies.....993,330.95  
Loans on real estate.....2,885,864.57  
Interest earned, uncollected.....282,752.51  
Furniture and fixtures.....52,003.20  
Due from 793 banks in state.....6,201,526.67  
Due from banks outside state.....60,476.37  
Cash items due from banks.....653,667.27  
Cash items due from corporations.....106,651.85  
Cash on hand and cash items.....23,276.27  
Total resources.....\$15,926,725.21  
Liabilities.....\$ 2,000,000.00  
Surplus.....40,000.00  
Reserve to repay appropriation.....24,108.57  
Reserve for depreciation.....9,860.66  
Net profits for 1920.....121,889.17  
Net profits for 1921 to date.....4,287.72  
Appraisal fees.....5,713.43  
Individual deposits.....229,039.19  
Public deposits, sinking funds.....3,678,756.10  
Public deposits (state treasurer).....2,958,118.51

Public deposits (county, school, etc.).....4,840,893.33  
Due to banks (reserves).....955,888.20  
Collection items.....58,185.12  
Bills payable.....1,000,000.00

Total liabilities.....\$15,926,725.21  
Mr. Cathro attacks the reasons which have been assigned by eastern interests for the decline in grain prices and says that the quantity of exports was greater in 1920 than in 1919, although it has been said that the European demand had fallen off. He said that the European situation had no part in declining prices.

## 100 MILLION EXCESS GRANT TO BUILDERS

New York, Jan. 20.—At least \$100,000,000 improperly paid shipbuilders by the United States Shipping board was disclosed through an audit of accounts now in progress.

Abadie, former comptroller general of the board, declared here today before the Walsh congressional committee.

Col. Abadie charged that there were "a great many serious irregularities" in the dealings between the Bethlehem shipbuilding corporation and the government as a result of Charles M. Schwab with both the board and the corporation.

## THREE EMPLOYEES OF STATE BANK ARE DISCHARGED

Three employees of the Bank of North Dakota are without jobs today.

Two of the employees were girls, Mary Berger and Phoebe Cervinski, both of whom were among the oldest employees of the bank, and the third was Lloyd Harris, whose home is in Lisbon.

Friends of the girls say that a Non-partisan league worker and employee of the bank, had given girls to understand that they must join the women's division of the Non-partisan league, but that there were some "whiffs" about giving the chance to join. The girls were not asked, Harris, it is understood, flatly refused to take out an \$18 membership in the league.

Manager Robinson, of the department in which two of the employees worked, said that there was no politics in the matter. Work is light at this time of the year and was necessary to make a decrease in his department and he simply let go of those he could best spare, he said.

Much Rain in Hawaiian Tree.

When you pull a piece of bark off the chunky old monkey-pod tree, reports a traveler recently in Hawaii, you smell so much resin that it seems to you that the hot sun alone would be enough to set the bark flaming like a torch. It makes a tall, pointed flame, like the flame on a big candle. Fire lurks in the tree somewhere, that is certain. They say that at one time the old Hawaiians tapped the tree as Americans do a sugar maple.

Earning His Money.

Tommy has a little friend who acts as chauffeur when they go for a ride in his toy car. One day Tommy went into his uncle's home to get warm, leaving Billy on the curb as usual. It was a cold day and the uncle remonstrated, telling him to go out and bring him in. "Oh, him's all right," replied Tommy. "He will have to get used to it or he won't get his twenty cents a week."

Low Cost Night Light.

By the ingenious combination of a small step-down transformer and an automobile incandescent bulb, an inventor has recently introduced a night light which costs practically nothing to operate. Indeed, this light, operating on the standard alternating current supply lines, hardly affects the usual meter, hence the cost is negligible.

Quaint Form of Oath.

Reginald Farrant, who has been appointed stipendiary of Douglas and Castletown, Isle of Man, was recently sworn in the quaint form which has prevailed in the island for centuries. He swore to do justice between party and party "as indifferently as the herring's backbone doth lie in the midst of the fish."

## DESERTER FROM SOCIETY

Captivating Palm Beach Bathing Beauties in "Listen Lester"

Another society girl has deserted society—this time for the stage—and henceforth Miss Betty Kirkbride, who has been identified with the younger set in Philadelphia, and who was known as the best classic dancer and a skilled guitar, will devote her time to carving out a career for herself on the stage. Miss Kirkbride, who is still in her teens, is a daughter of J. Drexel Kirkbride, one of the oldest

Quaker families of Philadelphia. Miss Kirkbride received the splendid educational advantages of the Friends' Select School in Philadelphia, a college which numbers among its alumnae many brilliant women of this country. Miss Kirkbride, having had the advantage of having intended from her early girlhood to take up a stage career, and having at first bitterly opposed by her parents, and it required some independence and courage on her father's part when he deliberately threw over the family tradition, but on their final acceptance of the situation she was trained accordingly. After graduating from college, she appeared in several local entertainments and was given her first professional engagement by John Manager Cort, a small part in "Listen Lester," which comes to the Auditorium Saturday, Jan. 22.

York City. She next appeared as the slangy chorus girl in "Maytime," with John Charles Thomas, at the Shubert Theatre, New York, and was re-engaged by Manager Cort, for the part she is now playing during the run of the play at the Knickerbocker Theatre in New York. Miss Kirkbride will be seen as the vampire in John Manager Cort's "Listen Lester," which comes to the Auditorium Saturday, Jan. 22.

## MARKETS

Chicago, Jan. 20.—Apparently erroneous assertions that the Argentine export tax on wheat had been removed led to declines in the wheat market today but a quick rally ensued. Opening prices, which carried from 1/2 to 3/4 cents lower, with March \$1.71 1/2 to \$1.72, and May \$1.62 1/2 to \$1.63 were followed by upturns that in some cases went above yesterday's finish.

Chicago, Jan. 20.—Cattle receipts 18,000. Bulk beef steers around \$5 to \$9.50.

Hog receipts 67,000. Fairly active, 25 to 25 1/2 cents lower.

## Overseas Veteran Gets Fire Engine from Burning Building

Fire in General Store at Englevalle Causes Loss of \$40,000

Fargo, Jan. 20.—Fire today destroyed the J. T. Peterson general store at Englevalle, N. D. The loss is \$40,000, according to estimates which valued stock of goods at \$32,000 and the building at \$8,000. The origin is unknown.

The building burned housed a chemical engine, Englevalle's only piece of fire-fighting apparatus. E. H. Barber, an overseas veteran, donned a gas mask and rescued this engine, entering the smoke-filled store to bring it out.

# BISMARCK MEN TAKE TEST FOR MOVIE MACHINES

Board of Electrical Examiners  
Convenes Here in Annual  
Meeting

The state board of electrical examiners, in annual session here, announced that it favored a law requiring state inspection of all electrical work. The board does not plan to urge enactment of a law providing such inspection at this session of the legislature, however.

"The law providing for the examination and licensing of electrical workers has been in operation four years, and it has justified itself," said Henry T. Reade, state fire marshal and secretary of the board. "A higher standard of work has been given and doubtless thousands of dollars of fire loss has been averted by requiring electrical work to be installed by experienced workmen."

Members of the board are A. J. Bentley, of Grand Forks, president; R. L. Melville, of Bismarck; Anton C. Olson, of Minot; and Mr. Reade.

Twenty-four applicants were examined here, including Jack McDonald, J. W. Snow and George Holm, of Bismarck, all of whom seek licenses as movie operators, a division of the examination board. Towns from which applicants came include Wilton, Washburn, Mandan, Freidonia, Dickinson, Killdeer, Elgin, Strasburg, Beulah and Steele.

The board, after leaving Bismarck, will hold examinations in Jamestown, Fargo and Grand Forks.

# HIGH SCHOOL STUDENTS TO TEST GRAIN

Williston, N. D., Jan. 20.—To aid the farmers of this section of the country in the selection of good seed grain, the agricultural department of the Williston high school, under the direction of Prof. E. J. Sprunt, have made arrangements to test the farmers' seed wheat and corn free of charge. Some excellent work for the aid of the farmers and the training of children along agricultural lines is being done by this department.

Plans are now being made by the high school for the holding of a farm boys' institute some time in the early part of March, to which all of the farm boys of the county will be invited. Prominent agricultural experts of the state have promised their assistance in this movement and will take part on the program.

# IS NOT CHEATED

Minister, Revived One Day, Falls  
Dead the Next

(N. E. A. Staff Special.)  
Hahira, Ga., Jan. 20.—Rev. R. P. Fain was host at a preachers' conference. He fell in a faint. Others "laid him out," thinking he was dead.

His son, Rev. R. D. Fain, went to tell his mother of his father's death.

Rev. John Stainford entered the church, pounced upon the prostrate form with his knees and pumped the arms violently.

Breath returned.

Rev. Fain resumed his duties at the conference next day. A physician said he had suffered only an acute attack of indigestion.

He went to the station to bid good-by to departing clergymen.

On the way home he fell in the street.

No one was near to resuscitate him, and he expired.

# ATTENTION M. B. A.

# SOUTH DAKOTA HAS NEW PLAN TO GET HOMES

To Loan Money to Homebuilders,  
Who Can Do Building  
Themselves

Pierre, S. D., Jan. 20.—Governor W. H. McMaster's home building program for South Dakota will be contained in a bill to be introduced within a few days to the legislature. A home building amendment to the constitution was given a substantial majority by the people of the state at the last general election, and it now

lies with the legislature to formulate and provide for ways whereby the state may loan money at a low rate of interest for this purpose.

The proposed bill will create a home building department at Pierre, which will loan money to accredited citizens, in sums up to \$5,000, for the purpose of building in the various towns and cities of the state. The borrower will be required to own the lot upon which the home is to be built and to have in cash a percentage of the cost of the building.

The bill will provide that the state assume no responsibility regarding the loan, after it has completed its investigation and provided the money, the possibility of loss reverting to the municipality in which the loan was made.

**ELTINGE.**

The elite of Washington society forms the background for "The Wonderful Man," the Robertson-Cole super-special picture, starring Georges Carpentier, idol of France and European heavyweight champion, which will open at the Eltinge theatre Monday for a run of two days.

This unusual drama of American society, directed by John G. Adolfi, for Robertson-Cole, promises a revelation in motion pictures of the newer and better sort. The versatility of Carpentier, according to eminent critics who attended a recent pre-review, will prove a great surprise to lovers of the cinema art.

Based on an intriguing story of love and mystery, in which Carpentier is given opportunity to display his capacity as a boxer, a sportsman and as a gentleman of the first order, "The Wonderful Man" should prove to be one of the most commendable productions that the Eltinge theatre has ever presented.

Included in the picture is a boxing bout, with men of national and international prominence forming the audience. At the time the boxing scene was taken more than 2,000 persons packed the studio. This realistic scene, said to be the most perfect of its kind ever filmed in the history of the screen, shows Carpentier in the ring for the first time on this side of the Atlantic. He fights four fast rounds with a worthy opponent.

Among other commendable reports on "The Wonderful Man," received from critics who witnessed the pre-review is the sensation created by the superb acting of Carpentier. His ability as an actor of the first magnitude promises to be a revelation to the lovers of the cinema art.

**JUDGE CHRISTIANSON SPEAKS**

Judge Christianson of the supreme bench addressed the Business and Professional Women's clubs at the regular weekly meeting in their club room last night. The meeting was set for Tuesday night, which would have been the birthday anniversary of Daniel Webster and although the meeting was postponed one day, the club requested Judge Christianson to talk on the assigned subject.

Reviewing the life of Webster as to birth, surrounding conditions and education, he touched briefly on the outstanding events in the stirring days just previous to the Civil war. It was shown that, while Daniel Webster did not become president of the United States, nevertheless his philosophy imbued the youth of that day that the young men who later shaped the destinies of the nation had drawn their inspiration from the oratory of the great statesman who shared with Abraham Lincoln the belief that the Union must remain.

The speaker reminded his hearers that the motto on the seal of our state is the last sentence in Webster's famous reply to Hayne. "Liberty and union now and forever one and inseparable."

Following the address, which was greatly appreciated by the assembly, Misses Garesche, Mallory, Blank and Shafer took part in a heated debate on one of the live questions of the day. There was a contest between five young women in five minute talks on given subjects—all to talk at the same time. Four became so interested in the eloquence of Number five that they forgot to keep on talking and, as a consequence, Number five took first honors. Miss Shafer read "Socrates Snooks," most effectively. A delightful evening closed with social games.

**PRESBYTERIAN AID PLEASED.**

The efforts of the first section of the Presbyterian Ladies' Aid were most successful yesterday afternoon when they put on "Mrs. Wiggs of the Cabbage Patch" with Marguerite Clarke in the leading role at the Eltinge. The ticket office reports 500 children in attendance. Many of the elders stood through the show and enjoyed the pleasure of the children as heartily as the play on the screen. After paying the necessary expenses Group One, under the direction of Mrs. Call, will have a nice sum to turn over to the church fund.

**LEGION DANCE A SUCCESS.**

The Wednesday evening dance of the American Legion was held in their club room last night, with an excellent attendance and a good time reported. The Legion dances are coming to be an important item in the social life of the city.

**DANCING PARTY**

**IT'S GOOD FOR CHILDREN**

Mrs. C. E. Schwab, 1007 14th St., Canton, Ohio, writes: "We use Foley's Honey and Tar for coughs and find it one of the best remedies on the market, especially good for children's coughs, as it does not contain any drug that is harmful." Serious sickness often follows lingering colds. Hard coughing racks a child's body and disturbs strength-giving sleep, and the poisons weaken the system so that disease cannot be ward off. Take Foley's in time.

**WOMEN KEEP SECRETS?—SURE—U. S. WOMEN.**

The man who originated the platitude that women can't keep secrets didn't know American women. The sphinx has nothing on them. For proof, see the foreign diplomats at Washington. Whenever they want a woman for a job that requires utmost secrecy, they hire an American woman. Here are three, of many in Washington who hold confidential places in offices of foreign countries: (left to right) Miss Anna W. Hill, who is in the Finnish legation; Miss Frances Van der Bogert, in charge of files in the Dutch legation; Miss M. Pearson, who does confidential work in the Belgian legation.

**GOOD THINGS FOR THE TABLE.**

A nice spice cake which will keep moist a long time is the following:

**Spice Cake.**  
Cream one-half a cupful of butter, add one and one-half cupfuls of brown sugar, two eggs without separating, one-half cupful of coffee and two cupfuls of flour sifted with three teaspoonfuls of baking powder and one teaspoonful of cinnamon, one-half teaspoonful of mace and one-half teaspoonful of clove. Add the coffee alternately with the flour and bake in a loaf pan.

**Peanut Butter Fudge.**  
Boil together two cupfuls of brown sugar and one-half cupful of milk; when a soft ball is formed by dropping a little in cold water, add one-half cupful of peanut butter, reheat until melted, pour into a buttered pan and mark in squares when partly cooled.

**Cereal and Nutmeg Chops.**  
Take three-fourths of a cupful of hot cooked cereal of wheat, add one-fourth of a cupful of soft bread crumbs, two cupfuls of fine crushed nutmegs, one teaspoonful of salt, one-fourth teaspoon of pepper, one-half teaspoonful of powdered thyme and one egg beaten light. Mix all the ingredients together thoroughly and form into cutlet shapes. Place in a buttered pan and bake twenty minutes. Serve with bananas cut in quarters, rolled in flour and fried in hot fat.

**Chocolate Mocha Cake.**  
Mix as usual the following ingredients: One-half cupful each of butter, brown sugar, white sugar and molasses, one ounce of melted chocolate, two egg yolks beaten light, one-fourth of a cup of cream, one-fourth of a cup of milk, one-half teaspoonful of soda, one-fourth teaspoonful of clove, one-half teaspoonful each of cinnamon and mace, two cupfuls of flour and the stiffly beaten whites of two eggs. Bake in a sheet twenty-five minutes.

**Mocha Frosting.**  
Take one cupful of butter, if salt, wash it; add two and one-half cupfuls of sifted confectioner's sugar, then two squares of melted chocolate; finally beat in one-fourth of a cupful of coffee a few drops at a time. Make and freeze the orange ice as usual. To a pint of cream add a scant half cupful of sugar, and such flavoring as desired; beat until light but not firm or in the least dry. Put the mold with layers of the orange ice and the whipped cream. Cover and pack to become firm.

**Spanish Sandwiches.**  
Put into a small chopping bowl twelve anchovies wiped free from oil, two tablespoonfuls of capers and four or five branches of parsley; chop fine, then pound with a pestle, adding meanwhile half a teaspoonful of mustard, one tablespoonful each of oil and vinegar and the hard cooked yolks of two eggs. When all is mixed to a smooth paste spread upon buttered bread; sprinkle with the whites of eggs chopped fine and press together sandwich fashion.

**The Kitchen Bolshevik.**  
"Are you a parlor bolshevik?"  
"No. The humbler phases of life interest me. The lettuce sandwich and the cup of tea are no inducements. I am directing my attention to the kitchen, where they really have something to eat."

**J. M. MARTIN CONVALESCING**

J. M. Martin, superintendent of schools, is convalescing.

After a very severe attack of erysipelas, Mr. Martin appears to have passed the crisis, and physicians feel that he is on a steady road to recovery. Mr. Martin still is very weak and visitors have not been admitted to his room, but improvement can now be noticed from day to day. It is felt that the disease has run its course. It may be several weeks before Mr. Martin is able to actively resume direction of the city schools.

**A CLEAR COMPLEXION**

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system. If you have a pale face, yellow look, dull eyes, pimples, coated tongue, headache, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results. Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit, 15c and 50c.

**OUT OF THE RACE.**

When a person wakes up with a stiff back, has pains in muscles, aches in his joints or has rheumatic twinges, he lacks ambition and energy and cannot do his best. If you feel out of the race, tired and languid, or have other symptoms of kidney trouble, you should act promptly. Foley Kidney Pills help the kidneys do their work and get out of the system the poisonous waste matter that causes so much trouble. They give relief from sleep-disturbing bladder disturbances.

**THE STATE'S OLDEST NEWSPAPER**  
(Established 1878)

**AMERICAN FARMERS CANNOT TAKE THIS STEP BACKWARD.**

President Howard, of the American Farm Bureau Federation advises farmers of the United States to make more use of horses and less of tractors. Instead of spending money for gasoline, he said at a meeting of the Illinois Agricultural association, "it would be well to use the grain at home. It will make a better market for the surplus if this plan is followed out."

Nothing more harmful to American agricultural interests ever has been suggested than this proposal to retreat from the machinery era to the old hand-power, horse-drawn age.

Between 1850 and 1910 the number of American farms increased fourfold; in the same time their value increased tenfold. The principle reason for the increase in the value of the farms lies, of course, in the vast increase of the American crops, which increase is due principally to the general use of the most powerful labor-saving machinery. Between 1850 and 1910 the value of agricultural machinery increased eightfold. As the price of agricultural machinery fell rapidly during the period it follows that the quantity of agricultural machinery used increased far more than eightfold. Production per acre increased steadily as the use of machinery rose.

There could be no surer way of committing suicide than for American farmers to follow Howard's advice and discard tractors for horses. Logically it would follow that if horses should be used because they consume grain it were better to go still farther back and drive oxen, for a yoke of oxen can do less work per day than a team of horses, necessitating more oxen than horses and thus further increasing the need for grain. Oxen too, would demand more man-power, which in turn would increase the demand for human food, thus giving "a better market for the supplies," as Howard suggests.

This carried still further would suggest the abandonment of all farm machinery, going back to the sickle, and the hand threshers, enormously increasing the demand for man-power and the accompanying demand for food.

If other American industries accepted Howard's advice and discarded machinery because machines don't wear shoes, nor clothes, nor eat wheat, where would this country be ten years hence?

It is true that tractors curtail grain consumption. But it is also true that they increase grain production. What is true of tractors is true of all farm machinery; they're all in the same boat, none of them eat grain. But because the American farmer now uses the tractor, the modern reaper, thresher, planter, and other farm machinery he is miles and miles ahead of his great-grandfather.

**THE KITCHEN MARATHON.**

The average housewife walks two miles a day while she is preparing meals for her family. The Conference of Vocational Workers of the south, in Montgomery, Ala., became interested in home labor-saving discussions. A pedometer was attached to a student in a model kitchen, breakfast, lunch and dinner were prepared. Two miles over the stove-sink-pantry-table route!

She walks 14 miles a week, 728 miles a year. Add to that the miles she travels sweeping, dusting, answering door bells, the telephone, and the other few thousand of household duties and one estimates that mother crosses the continent each year without crossing her threshold.

The answer is, of course, step-saving. Non-used rooms, kitchens too large, or poorly arranged, will have to go. The efficient housewife will cut out unnecessary steps. This will not be done so much to avoid walking two, or even five miles a day, for health experts insist that five miles a day spells health. The hike, though, should be outdoors, not in the kitchen. That's the newer idea; fewer steps indoors; more outside.

**YOUNG PEOPLE OF TODAY.**

A man was released a few days ago who spent a quarter century in Charlestown state prison. He had heard and read of outside changes during his imprisonment. But that was not like seeing for himself. He comes back to life as a modern Rip Van Winkle.

That gives his observations a peculiar interest. Particularly his observation of young people. For the young have been the object of much criticism for their freedom of manner, disregard for advice of elders, and for many other changes for

which they are compared unfavorably to the young people of 1895.

But that is not the way they appear to the new Rip Van Winkle.

He was amused by the short skirts worn by girls, and he said they appeared "As if on stilts."

But he added:

"Young people today appear to be much more intelligent. They've got a go-ahead look that only one in a hundred used to have."

**A GOOD WAY TO LOOK AT IT.**

"Ease begets sloth," writes a noted economist, who continues: "Hard times beget energy and intelligent exertion."

Prosperity begets ease.

It is, therefore, not worth while to worry about "hard times." If they should come—

They beget energy and intelligent exertion! Not a bad way to look at it.

Necessity is as much the mother of invention today as she was when the pre-human climbed down out of the trees and began rustling for food on the plains.

**SUCH WAS LIFE**

The bluest blue law of the bluest blue law backer today is a pale robin's egg blue besides the frolicsome little rules for Sunday observance laid down by "A Person of Great Learning and Piety," for the direction of his children in England in 1662.

Squire Abner Harrington possesses a copy of the "Contemplations," of this pious unknown "Printed by William Godbid for William Shrewsbury at the Bible in Duke-lane at Blew Bell in Fleet street near Chancery-lane," in 1676.

Condensed, here are a few of the rules:

"It is not only unfit but unlawful and indecent to indulge in exercise and recreations, as bowling, shooting, hunting and divers other recreations including the study of human learning on Sunday."

"You must not walk for pleasure, no more than is enough to digest your meat and overcome drowsiness. About a half hour of sober walk, I should deem best."

"You must not engage in cheerful or animated conversations nor talk of business, pleasure or learning except the learning of Scripture."

"You may give physik to the sick and set broken bones, but you may not dress meat which should have been prepared for table on Saturday."

"The worthy gentleman instructed the children to listen to the same sermon morning and evening."

He said he always observed Sunday so, only more so, and enjoyed it.

He's dead now.

**Why not call them income tax blankety blanks.**

The fact remains, that the modern miss isn't as bad as she's painted.

**EDITORIAL REVIEW**

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

**A MONKEY BITE AND THE WORLD'S PEACE.**

The joke is on the powers which gave to Greece all that the most ardent Hellenic nationalist could hope for, on the theory that the greater kingdom would serve as an outpost of western European power in the Near East. Only to have the whole situation changed in the twinkling of an eye by a monkey bite which put a supposedly non-sympathetic monarch on the throne. Many of the consequences of imperialistic intriguing along the Aegean would be laughable if they were not tragic—tragic because filled with the menace of the renewal of the savage struggle which has kept the soil of the Balkans drenched with blood for a decade. With the shadow of war again hovering low, over the Golden Horn, the European war is back where it started. The Balkan wars of 1910-14 were only curtain raisers for the general European struggle.

The late Vice President Fairbanks, upon his retirement from office in 1909, made a trip around the world. He had an extended conference with the old King Constantine, who for seven years had ruled over the Greeks. The King told the distinguished American, with prophetic vision, that a general European war was inevitable, that it would start in the Balkans and finally involve the entire continent. Asked for his reasons for so believing, he said: "Because every great European power has been for years preparing for war, and every power now believes it is better prepared for what it believes is inevitable than it ever will be again." In relating this incident, Mr. Fairbanks continued: "Everywhere in Europe I saw, not war, but armies, not fighting, but fleets, and it was pressed home upon me that what the old king had said was right, and that Europe was only awaiting the moment for the clock to sound the hour of fate."

**'TWIXT THE DEVIL AND THE SEA**

**ADVENTURES OF THE TWINS**  
By Oliver Roberts Barton.

The Magical Shoes Disappear. "Let's wish ourselves out of here," whispered Nick, as the whale sank faster and faster toward the bottom.

Shoes are gone, that's what," he said. "Now we're in for it. Yes, something had happened to the shoes. Either the water had washed

of the ocean and the palace of that wicked wizard, Bobadil Jinn.

"Oh, yes, let's," agreed Nancy, clutching at her brother fearfully. "Are you sure that is where we are going?"

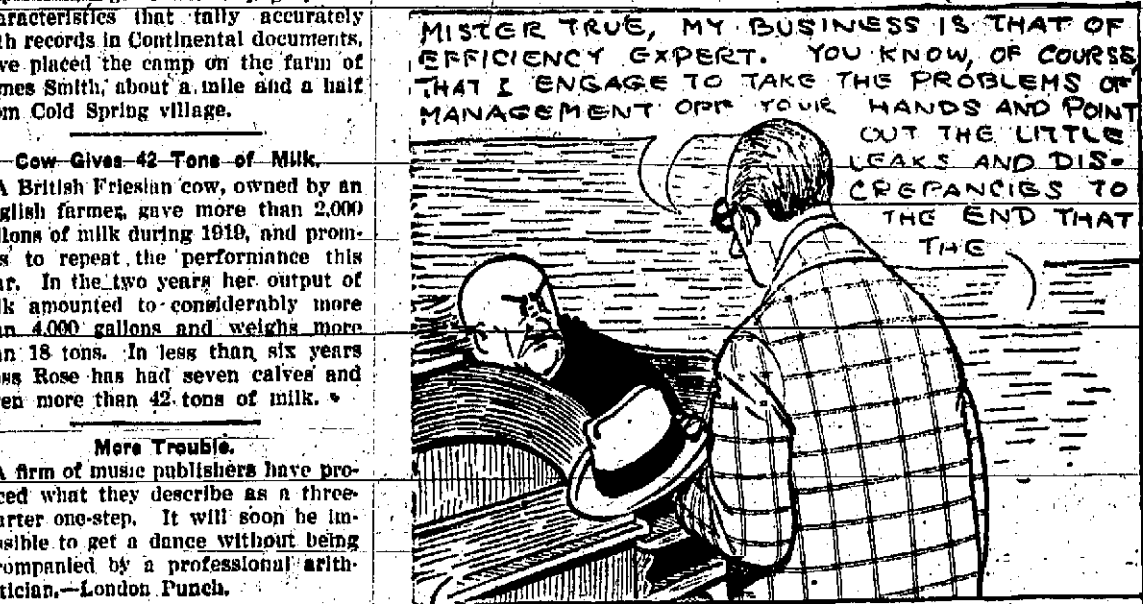

Nick pointed to a place on the map, and in spite of the water all around them, Nancy could see plainly. Nick was right. So they wished at once.

"Please, Green Shoes," begged Nick, "set us on top of one of those ice-borgs floating around on top of the water, so that we may keep on our journey to the South Pole."

But instead of finding themselves instantly whisked off to the place of their choice, as had always happened before when the little shoes were asked a favor, the twins found themselves instead continuing their swift journey to the bottom of the sea.

"Wh-wh-what's wrong?" gasped Nancy. Nick looked down. "Our Magical

**SOUP** which is not usual but very good may be prepared as follows: Cook turkey giblets until tender in a small amount of water. Chop them and force through a coarse sieve. Thicken the liquor in which the giblets were cooked, season, add cream, the strained giblets and brown stock to make up the quantity desired.

**Pumpkin Pie in Cups.**  
For those who like the filling but cannot eat pastry fill custard cups with the pumpkin mixture, put a rim of pastry around the top of the cup and bake as usual.

**Cranberry Ice.**  
Cook the cranberries as for sauce, strain them and add an equal amount of sugar sirup and freeze. Make the sugar sirup by boiling two cupsful of sugar with a half cupful of water until thick; when cool use. Serve when frozen in tall glasses.

**Chestnut Stuffing.**  
Blanch a pound of Italian chestnuts, boil until tender and put through a ricer. Add one cup of bread crumbs, one-half cupful of shortening, one tablespoonful and a half of poultry seasoning, one-half cupful of raisins, with salt, pepper, celery salt, sugar and cayenne to taste.

**Tomato Jelly With Celery Salad.**  
Cook two and one-half cupsful of canned tomatoes, two slices of onion, three cloves, a stalk of celery, three sprays of parsley, a small bit of bay leaf 15 minutes. Strain and add one-fourth of a package of gelatin softened in one-fourth of a cupful of water; stir until the gelatin is dissolved then turn into a border mold. When ready to serve dip in tepid water, wipe, turn in the hand to make sure that the jelly is free from the mold and unmold on a chilled dish. Fill the center with tender bits of celery mixed with mayonnaise.

**Eggs Marchese.**  
Butter muffin tins and set upon the range to warm. In the bottom of each put a teaspoonful of soft bread crumbs, add a dessert spoonful of milk, then an egg carefully broken in, season with salt, pepper and paprika. Over this pour a dessert spoon of milk and drop a small lump of butter, a few more bread crumbs and a little grated cheese—parmesan is good because always grated—a mixture of any cheese may be used. Bake in a moderate oven ten minutes. They should be a golden brown and when a knife is run around the edge and they are turned out on a hot platter they look like brown puff balls and melt in one's mouth.

**THE GIRL ON THE JOB**

How to Succeed—How to Get Ahead—How to Make Good  
By JESSIE ROBERTS

**ADVERTISING BUREAU**

WOMEN are making successful ventures in various advertising businesses. One of the methods that have proved to work well is that of organizing an advertising bureau.

—This is the way one successful firm manages:

There are three young women in the firm, who have incorporated under a certain firm name. One of these is the business manager. The second is the seeker after necessary material,

whether data or photographs. She hunts up the material required by a writer for a certain story, the illustrations needed to go with such an article, she makes sure of important details that are to be used in press stories. The third partner finds the people who are to do the actual work, the writing, the illustrating. She plans work ahead, sees those who want publicity, arranges interviews, and attends to all the social side of the business.

One of them worked for a year as a reporter on a great daily. She learned a lot about publicity, and how to tell a good story, a news story, when she saw it. The other girls had been employed in business offices. But they had taken these positions simply with a view of getting required training.

"I always meant to get into business for myself, and so did my associates," one of them told me. "A girl needs to get into a good office and keep her eyes open and her wits alive, before she tackles something of her own. But I believe that any girl who is intelligent and ambitious, and who is willing to spend a year or two of hard business training, is sure to make good in a business of her own. And she will be much more likely to make real money and to have a chance to make the very best of herself in a business of her own than in any salaried job."

But I shouldn't advise any girl who doesn't like hard work to follow such an example, for you don't count hours or effort where it's your own firm.

## SECRETARY WILSON DEFENDS L. F. POST

Washington, Jan. 20.—A defense of the policy of the department of labor in dealing with radical aliens and a complete endorsement of Assistant Secretary Louis F. Post in carrying out that policy was made today by Secretary Wilson in a statement replying to an attack on Post by the executive committee of the American Legion.

Wednesday. It provides for the entrance of patients to the institutions for temporary care or for observation, without actual commitment by county boards.

Senate Bill No. 12, D. J. Ruseh, independent, providing for regulation of concentrated feeds products under the regulatory division of the Agricultural college was also passed unanimously by the senate. Both measures will be messaged to the house when the legislature re-convenes Tuesday.

**Back to Committee.**  
Senate Bill 16, introduced by Senator Nicholson by request, and which

## Home-made, but Has No Equal for Coughs

Makes a third source of really dependable cough medicine. Prepared, and saves about 80%.

"If you have a severe cough or chest cold accompanied with soreness, throat tickle, hoarseness, or difficulty breathing, or if your child wakes up during the night with cough and you want quick help, try this remedy. You can get it in a minute. You simply mix with 2 1/2 ounces of Pinex. Pour this into a pint bottle and fill the bottle with plain unflavored sugar syrup. Or you can use clarified molasses, honey, or lemon syrup, instead of sugar syrup, if desired. This remedy makes a pint of really dependable cough remedy. It tastes good, and in state of its low cost, it can be depended upon to give quick and lasting relief."

You can feel this make hold of a cough in a way that means business. It loosens and eases the phlegm, stops throat tickle and soothes and heals the irritated membranes that line the throat and bronchial tubes, with such promptness, ease and certainty that it is really astonishing.

had been reported out for passage, was returned to the temperance committee on request of the introducer. He declared that this bill is really supplemental to, and a companion bill to House Bill No. 5. The latter measure is an application of the Volstead act to North Dakota. The senate measure provides for payment to parties who capture whiskey runners, the proceeds from sale of confiscated vehicles. Senator Nicholson agreed that no action should be taken on his measure until after the house bill had been received by the senate.

A communication from Mrs. C. M. Mullin, and twenty other ladies of Kenmare, N. D., urged the senate to pass legislation which would make it necessary for an attorney general to have the same qualifications as those required of a district judge.

## LEGISLATURE IN 5-DAY RECESS; IN HOT FINISH

(Continued from page one.)  
be necessary and to prepare such information and data as shall be desirable and required.

**Special Committee.**  
Therefore, be it resolved, that the speaker of the house appoint a special house committee to consider such and to determine such further information and data, such committee to consist of nine members of this body; the said committee to be authorized and empowered to procure such legal assistance, such accounting experts and such other expert and other aid and assistance as they shall deem necessary and advisable to the certification and checking of such audit and to the procuring of any and all further information respecting the condition of our state bank and other state industries; that such committee shall have the power to summon witnesses and require their testimony under oath. If the committee so decide, take testimony of any required the giving of any information which will aid them in their work by a official or employee of any department, institution, or industry of the state and from any official or citizen of the state, and shall have the power to require any and all books and records of any department, institution, industry or official of the state, or of any citizen of North Dakota, or of any corporation doing business within the state, to be produced before it for examination with respect to any matters concerning the state bank and our other state industries.

Such committee to be further authorized to have printed such number of copies of such audit, if any, as they deem necessary for the use of the members of the legislative assembly. A communication was read from D. C. Poindexter, state auditor and secretary of the board of auditors, taking full responsibility for the telegram sent to Bishop, Brissman & Co., asking for all three reports and stating

that it was sent before the conference between the senate committee and the board and that in sending it he only meant that the man bringing the report should report to him with the report and the copies thereof and that he would notify the senate and the house of the arrival of the report. The communication contained copy of a telegram sent Bishop, Brissman & Co. as follows:

"My wire fifteen, evidently confusing. Want man who is in charge of audit work to accompany reports in person and report to this office. Then house and senate committees will be notified of its arrival and party in charge will receive instructions as to its disposal. Please advise when we may expect reports. Is this clear?"

(Signed)  
D. C. POINDEXTER,  
Secretary State Board of Auditors.

The house first turned down the report of the conference committee favoring an adjournment until Tuesday. After considerable maneuvering apparently to prevent any political propaganda being made by either faction, however, the concurrent resolution was adopted by a vote of 89 to 40; the division not being in any degree along party lines.

**STARTS CASE AGAINST BANKER**  
Berthold, N. D., Jan. 20.—J. A. McGregor, as guardian of the affairs of Thomas Connolly, Berthold farmer, has instituted an action against the State Bank of Berthold and C. L. Stevenson, as president of the bank, for \$25,000. The plaintiff alleges misapplication of funds of the plaintiff by the defendants. Moddy O. Elde, of Minot appears for the plaintiff, and Bossard and Twiford for the defendants.

Westminster abbey has been put to many strange uses during the thousand years or so of its existence. In Cromwell's time it was turned into a barracks. ## THE RESPONSE TO A STIMULUS

How Increased Nerve Force Enables People to Accomplish Their Most Treasured Ambitions

The nerves seem to have gone completely to smash and the last atom of iron has apparently been burned out of the blood. There are more of such men and women today than at any other period in the last thirty years.

There has come into prominence a prescription used by a leading Ohio physician that is certainly one of the most timely events in recent years. It is called Reolo, and it hits these nervous, bloodless cases exactly.

In one of the prominent drug stores it has completely superseded all other preparations variously called tonics. The clerk sees its marvelous benefits daily. Men and women, who have come in sick, unhappy, discouraged, and defeated, and again seen in a week or a month after, using Reolo, are not the same people either in appearance or action. They have gained flesh and strength, real conscious strength; their blood is rich and red; they walk and talk with animation, there is a tinge of color in the cheeks, a snap to the eye that shows the vital processes have been cheered to their full, natural activity. Ask any clerk at Pinneys Drug Store or any leading drug store about Reolo. They will recommend it as the greatest reconstructive medicine that ever went over their counter. Get a \$1.00 box today and prove it in your own case.

"That's it, Reolo! I'll ask the Druggist if He Recommends It."

## A RAW, SORE THROAT

Eases Quickly When You Apply a Little Musterole.

And Musterole won't blister like the old-fashioned mustard plaster. Just spread it on with your fingers. It penetrates to the sore spot with a gentle tingle, loosens the congestion and draws out the soreness and pain. Musterole is a clean, white ointment made with oil of mustard. It is fine for quick relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds on the chest. Nothing like Musterole for croupy children. Keep it handy for instant use. 35c and 65c jars; hospital size \$3.00.

## THE RESPONSE TO A STIMULUS

How Increased Nerve Force Enables People to Accomplish Their Most Treasured Ambitions

The nerves seem to have gone completely to smash and the last atom of iron has apparently been burned out of the blood. There are more of such men and women today than at any other period in the last thirty years.

There has come into prominence a prescription used by a leading Ohio physician that is certainly one of the most timely events in recent years. It is called Reolo, and it hits these nervous, bloodless cases exactly.

In one of the prominent drug stores it has completely superseded all other preparations variously called tonics. The clerk sees its marvelous benefits daily. Men and women, who have come in sick, unhappy, discouraged, and defeated, and again seen in a week or a month after, using Reolo, are not the same people either in appearance or action. They have gained flesh and strength, real conscious strength; their blood is rich and red; they walk and talk with animation, there is a tinge of color in the cheeks, a snap to the eye that shows the vital processes have been cheered to their full, natural activity. Ask any clerk at Pinneys Drug Store or any leading drug store about Reolo. They will recommend it as the greatest reconstructive medicine that ever went over their counter. Get a \$1.00 box today and prove it in your own case.
